

Alternative Investment Insight through
Research, Training and Increased Efficiency

Alternative Investment Platform for Registered Investment Advisers

Alternative Investment Database

Get immediate access to current alternative investment data for structures like real estate, energy and hedge funds, as well as alternative mutual fund strategies like long-short credit, long-short equity, market neutral and more.

Research & Screening

Create sophisticated comparative reports based on 120+ program features to help you find alternative investments that meet your due diligence criteria. Easily access third party due diligence reports.

Analyst Reports

Review summary and research reports created by analysts to source and compare offerings, as well as support and document your investment recommendations.

Regulatory Support

Use robust tools, expand your knowledge, and track your due diligence efforts to more confidently apply alternative investment solutions for clients and fulfill your CE requirements.

Earn a \$50 credit toward your next annual subscription for each new AI Insight subscriber that you refer.
