

Financial Performance Reporting Tool featuring Industry Reports

Alternative Investment Insight through Research, Training and Increased Efficiency

Aggregating various financial data points to conduct ongoing monitoring for alternative investment offerings is an extensive process. AI Insight's Industry Reports can help you:

Easily access hard-to-find key financial statistics for each industry and program, such as distributions and coverage ratios, sector allocations, capital raise, leverage ratios and more.

See how the programs you're working with compare to the industry and peers' programs to determine gaps, or potentially where you may want to add/reduce offerings within certain sectors.

Customize packaged reports that combine the Industry Report with snapshots for the programs most important to you.

Meet due diligence obligations by conducting ongoing reviews of complex products.

Get unbiased updates on key performance metrics for hundreds of funds including:

Alternative Mutual Funds

Non-Traded BDCs

Closed-End Interval Funds

Non-Traded REITs

Private Placements (including 1031s and Opportunity Zones)

Industry reports aggregates program specific information into a comprehensive consolidated report. This screen allows the user to view the industry report, a quick reference matrix and even create larger reports that combine the industry report with individual program snapshots. These options are available for REITs (quarterly), BDCs (quarterly), CEFs (semi-annually), AMFs (semi-annually) and Private Placements (monthly). Available reports will appear below after being created and published following each reporting period.
